THIEN PHU

Web Developer – NodeJS

My website:
https://worufu97.github.io

SUMMARY

1-year learning and working experience HTML, CSS, Javascript.

6-month learning and working experience of NodeJS, ExpressJS, PostgresSQL.

Experience in developing web app using HTML, CSS, JS, jQuey, Bootstrap, NodeJS/PHP, Windows app using C# WPF.

Highly capable of researching and learning new technology.

SKILLS

Programming language: HTML5, CSS3, Javascript, C# .NET, PHP.

Frameworks and platforms: NodeJS, ExpressJS, ReactJS, Bootstrap 4, jQuery, Git (Github).

Database: Microsoft SQL Server, MySQL, PostgresSQL.

IDE: Visual Studio Code, Visual Studio 2019, Sublime Text 3.

English: Medium level. Can read/write and understand English documents.

Knowledge: MVC pattern, Single-Page Application, OOP, HTTP protocol, RESTful API, …

EDUCATION

Nov 2020 - Present	**Web Programming with NodeJS**

VNUHCM-University of Science & Self Learning
Learning NodeJS, ExpressJS, Bootstrap, Github, PostgreSQL, ReactJS, Single Page Application. Continue to improve knowledge about Javascript ES6, jQuery.

Sep 2020 - Dec 2020	**Web Programming with PHP**

VNUHCM-University of Science
Learning HTML, CSS, Javascript, jQuery, AJAX, PHP, MySQL database and improve my application programming skills, MVC pattern.

Apr 2020 - Jul 2020	**Database and C# WPF Programming**

VNUHCM-University of Science
Learning about MSSQL database, application programming with C# WPF, basic testing, MVVM pattern.

Aug 2019 - Nov 2020	**Data Structure and Algorithms**

VNUHCM-University of Science
Learning OOP with C++ language, learning about design patterns. Understanding more about data structures in programming: pointers, stacks, queues, trees... and algorithms: sorting, searching and basic graph.

Sep 2018 - May 2019	**Start Learning Programming**

VNUHCM-University of Science & Self Learning
Learning basic programming with C, C ++ language. Basic Python self-learning.

PROJECTS

- **Wowo Cinema (Website) – June 2021**
  NodeJS, ExpressJS, HTML5, CSS3, Javascript, jQuery, Bootstrap 4, MVC, PostgresSQL, …
  Movie ticket booking website, using NodeJS, ExpressJS framework, MVC pattern, AJAX. Login with local user or Facebook, Google account, send OTP via SMS, ticket verification by QR code, …
  Source code: https://github.com/worufu97/wowo-cinema-nodejs

- **Notoli Watch (Website) – Dec 2020**
  PHP, HTML5, CSS3, Javascript, AJAX, Bootstrap 4, MVC, MySQL, …
  E-commerce website, selling watches, using server-side PHP language, MVC pattern, increasing user experience with AJAX, full the basic functions.
  Source code: https://github.com/worufu97/notoli-watch-php

- **Notoli Shoes (Windows App) – Nov 2020**
  WPF C# .NET, LiveCharts, Apose, EtityFramework, MVVM, Microsoft Server SQL, …
  Shoes store management can either start from an existing master data or create a completely new one, using the database, MVVM pattern, and a few other libraries.
  Source code: https://github.com/worufu97/notoli-shoes-wpf

- **Cake Shop (Windows App) – Jul 2020**
  WPF C# .NET, LiveCharts, Material Design, …
  Cake shop management project with basic functions, invoice generation and sales statistics.
  Source code: https://github.com/worufu97/cake-shop-wpf

- **We Split (Windows App) – Jun 2020**
  WPF C# .NET, LiveCharts, …
  Utility apps while traveling in groups, managing money during the trip and storing travel memories.
  Source code: https://github.com/worufu97/we-split-wpf

- **Food Recipes (Windows App) – May 2020**
  WPF C# .NET, …
  My first project - a basic recipe storage app.
  Source code: https://github.com/worufu97/food-recipes-wpf
